ARMENIANS SENT ON TRIPS TO DEATH

Slain and Robbed by Kurds or Left to Die of Thirst on Desert.

PEOPLES ARE RAPIDLY BEING EXTERMINATED

Women Throw Children Into Euphrates Rather Than See Them Suffer—Tortures Terrible.

LONDON, September 25.—"The Turks are gradually but effectively exterminating the Armenian people," asserts the Dedeagatch correspondent of the Times. "The modus operandi is to send from each Armenian village day by day as many persons as a train can carry. When they arrive at Konish or some adjacent station they are turned out and an escort supplied over the Taurus mountains. "Once on the other side they are supplied with enough food for a few days and told to continue their journey to the neighborhood of Mosul, as they will now be in perfect safety. But in point of fact the region is nothing but a desert and before many hours marauding bands of Kurds and Bedouins rob and pillage these helpless men, women and children, so that those who are not actually slain, die of hunger or thirst. Not one ever reaches the intended destination, for should any one try to escape in another direction Turkish shepherds have orders to shoot them at sight.

Throw Children Into River.

"The consequence is that many distracted mothers throw their children into the Euphrates rather than see them suffer. Some even sell them for what they will bring before starting on their journey.

"A widely known American missionary who arrived at Constantinople the first week in September declared he saw as many as 25,000 Armenians collected around one station waiting to be sent on this journey from which none would ever return. American missionaries scattered about Asia Minor and particularly in the Armenian districts, gradually are leaving upon the advice of their ambassadors. The attacks upon Armenians are said to be excused upon the ground that they assisted the Russians in the occupation of the town of Van."

Women Sent Into Slavery.

The Chronicle prints what it declares to be accounts by eyewitnesses of Armenian massacres, asserting that besides many thousands killed, a half million have been deported in a systematic manner by local authorities, while thousands of others have been imprisoned. The charge is made that after the men are massacred the women and children are sent into slavery to be converted to Islamism.

The Chronicle's informant charges that many children are sent out alone along the roads to fall victims of starvation or robber bands. Massacres are reported to have taken place in the provinces of Kharput and Diarbekir, especially at Maradin. Women deported from the province of Erzerum, it is said, were left for several days on the Kharput plains, where they died of hunger. At Sari Kichia a caravan is reported to have been compelled to proceed, leaving the children of both sexes behind. Armenians living in Turkish towns along the Black sea, the Chronicle asserts, have been compelled to accept Islamism and have been sent into towns inhabited by Moslems. Chalk-Artislar, which resisted disarmament and deportation, is reported to have been bombarded, with the result that the entire population, including the bishop, was killed.

TURK FORCES REPULSED IN DARDANELLES FIGHT

French Report Gains and Continuance of Artillery Action.

British Sink Transports.

PARIS, September 25.—In the Dardanelles the last week passed relatively quietly. A Turkish attack on the French front was repulsed, and fifteen Turks were killed. A French warship has been reported to have sunk a Turkish battery on the coast of Asia.

A review of recent operations in the Dardanelles was issued by the French war office, reading as follows: "In the Dardanelles the last weeks of August saw little activity. They were marked chiefly by artillery duels and sapping and mining warfare. August 20 our mountain cannon forced the defenders of a field fortification located in the valley of Kereves Dere to evacuate the work, and when night came our soldiers finished its destruction. During this time our artillery continued its fire upon the batteries located by our aviators in the stone fortifications of Achil Baba and on the Asiatic coast.

Turk Artillery Capricious.

"The Turkish artillery is capricious. On certain days it appears to be lacking in ammunition and its silence, especially that of the heavy guns, is almost complete. On the other hand at other times its bombardment of our zone is as abundant as possible. We have suffered only material damage and of small importance.

"The work of our aviators on the Bay of Abachi Silman, the principal point of embarkation for Turkish supplies and reinforcements for the southern zone, has been happily completed by the fire of the fleet. Many vessels have been sunk by our allies and the Turks have been forced to abandon the work of embarkation during the daytime.

Two Turk Transports Sunk.

"The British submarines, whose activity in the Sea of Marmora is marvelous, have accomplished even in the strait some particularly difficult operations. On the 29th of August they sank two Turkish transports in the Bay of Abachi Silman and two others between Nagara and Gallipoli."

AERO RAID CASUALTIES IN ENGLAND REPORTED

LONDON, September 25.—The east coast raid committee, appointed in January, submitted today to the treasury a report covering fourteen German aerial raids previous to June 15, and the bombardment of the Hartlepool, Scarborough and Whitby by German warships. The number of claims reported for personal injuries is 697, of which 175 were fatal cases. The number of claims for damage to property, which have been investigated is 10,297.
